

PARAGON

FILE SYSTEM LINK

BOOST YOUR BUSINESS

- File system drivers and tools for Windows, Mac, Linux, and mobile users
- Drivers, libraries, SDK, and professional services for software vendors and OEM manufacturers
- Supports file systems for major hardware and virtual platforms, and embedded systems
- Steady throughput and balanced goodput with effective flow control, reduced overheads, and congestion avoidance
- Thrifty usage of processor, memory, and disk resources
- Protection of data integrity and prevention of accidental data corruption and possible loss

Since 1994, Paragon Software Group has been delivering best-of-breed solutions to enable assorted file systems across heterogeneous platforms and environments. Carefully designed for data safety, robust performance, and unobtrusive operability, this technology powers users and businesses across the world, including Belkin, Bosch, Cisco, D-Link, Dell, Toshiba, HP, Western Digital Corp., ASUS, Seagate, LG Electronics, Logitech, Buffalo, Acer, EMC / Iomega, Siemens, Lenovo, Microsoft, Motorola, Nokia, and ZTE.

APFS for Linux (Technology Preview)

- List and read APFS volumes formatted with macOS
- Read files up to 100GB in size
- Read resident and fragmented files
- Read file metadata and access rights
- Use shell scripts to build, install, and uninstall the driver
- Build together with other P-FSL drivers
- Contact us to help with technical questions, solution design, integration, and maintenance

Paragon Software Group has a wide range of software tools, solutions, and technologies. Our offerings contains low level storage management and file system drivers to safekeeping and recovery of operational, business, and user data across heterogeneous platforms and environments.
