

PARAGON MIGRATION SUITE

For Server

Migration specialist for Windows® corporate environments!

Migration Suite for Server includes all facilities to help IT administrators accomplish storage upgrade or system migration procedures on Windows Server with minimal cost and effort.

Our product delivers:

- Support for SSD, AFD, 2TB+ and non-512B sector size disks; USB 3.0 devices
- P2V, P2V Restore, P2P Windows migration
- Advanced WinPE 3.0 bootable environment
- Automatic partition alignment
- Basic drive partitioning facilities
- Flexible licensing policy

Primary audience:

- System administrators working for small and mid-sized companies
- IT experts

Migration Suite for Server

Brief Overview

Virtualization and Migration

Upgrade storage on Windows Server with minimal impact on your business activities (Clone HDD/Partition)

Migrate Windows Server to a different hardware platform. When upgrading to newer or just replacing failed hardware use our unique P2P technology to guarantee startup of your system on a dissimilar hardware configuration (P2P Adjust OS)

Migrate Windows Server to a virtual environment by converting all installed software and data into a ready-to-go virtual machine (P2V Copy)

Restore Windows Server from a backup directly to a virtual environment (P2V Restore)

Restore functionality of a virtual environment after unsuccessful virtualization with 3-rd party tools; prepare virtual machines out of supported virtual disks or Windows .vhd backup images (P2V Adjust OS)

Supported Virtual Machines

MS Virtual PC

MS Virtual Server

MS Hyper-V R1/R2

Vmware Workstation

Vmware Fusion

Vmware ESX Server

Oracle VirtualBox 3.0-3.12

Additional Functionality

Support for SSD, AFD, 2TB+ and non-512B sector size disks as well as USB 3.0 devices

Automatic partition alignment allows to get the most of physical and virtual data storages

WinPE 3.0 bootable environment enables to accomplish any operation without the software installation. Supporting a wide range of hardware configurations it has the option to add drivers for specific hardware on-the-fly

Supported Operating Systems

Windows 2000/2003/2008 Server

Windows 2003/2008/2011 Small Business Server

WHY PARAGON MIGRATION SUITE FOR SERVER?

Seamless migration for Windows® environments

- Allows P2V, P2V Restore, P2P migration for Windows 2000 and later platforms
- Makes OS start up after unsuccessful migration with 3rd party tools (P2V Adjust OS, P2P Adjust OS)
- Advanced WinPE 3.0 bootable environment to accomplish operations without the software installation. It supports a wide range of hardware configurations with the option to add drivers for specific hardware on-the-fly
- Helps to upgrade storages with minimal impact on business activities (Clone HDD/Partition)
- Online processing of locked (in-use) hard disks with MS VSS or Paragon Hot Processing enables to migrate without rebooting Windows and interrupting its work
- Automatic partition alignment allows to get the most of physical and virtual data storages during migration
- Basic disaster recovery functions (backup to local, external storages, or network shares) provide for data safety
- Smart Driver Injector makes the process of adding new drivers smooth and easy
- Time-proved drive partitioning facilities for fast storage initialization
- Boot problems correction (Windows system registry modification, MBR and BCD correction, etc.)

Wide range of hardware and software support

- Support for any Windows OS since Windows 2000 (including Windows Server 2008 R2 and Windows Small Business Server 2011)
- Support for all latest hardware, including all SCSI, IDE and SATA RAID controllers, SSD, AFD, 2TB+ and non-512B sector size disks, Blu-ray drives, USB 1.x/2.0/3.0 and IEEE 1394 (FireWire) devices, PC card storages...
- Support for MS Virtual PC, MS Virtual Server, MS Hyper-V R1/R2, VMware Workstation, VMware Fusion, VMware ESX Server, and Oracle VirtualBox 3.0-3.12
- Support for Microsoft dynamic disks (simple, spanned, striped, mirrored, RAID-5)
- Support for GPT (GUID Partition Table) disks
- Support for Apple Boot Camp configurations

Flexible licensing policy

- 1 'Per Migration' License*? \$199
- Up to 5 Migrations? \$845.75
- Up to 10 Migrations? \$1592.00
- Up to 20 Migrations? \$2786.00

* One 'Per Migration' License stipulates the use of the software to accomplish one system migration only.

We take care of our customers

- Free updates with no limitations
- Free upgrades within 60 days after purchasing and a good discount later
- Knowledge Base and Community Forum for self support
- Free complimentary support for 60 days after purchasing
- Exclusive paid assistance services

KEY FEATURES

Features	Benefits
NEW > New hardware support	SSD, AFD, 2TB+ and non-512B sector size disks as well as USB 3.0 devices
NEW > Automatic partition alignment	Automatic partition alignment allows to get the most of physical and virtual data storages
Supported virtual machines	MS Virtual PC, MS Virtual Server, MS Hyper-V, VMware Workstation, VMware Fusion, VMware ESX Server and Oracle VirtualBox
UPDATE > P2V Copy / Restore	Enable to create and properly configure virtual machines; employ MS VSS to synchronously migrate from several hard disks to ensure data consistency during online migration of a system, which seats on several partitions or hard disks
UPDATE > P2V Adjust OS	Allows creation of virtual machines as well, so besides its primary function, you can now build virtual machines out of virtual disks or Windows .vhd backup images
UPDATE > P2P Adjust OS	Reports on devices without drivers; searches for and installs lacking drivers from Windows repositories; notifies about boot critical devices without drivers; names devices according to model description, determines and install drivers for NICs
Live imaging and migration	Protect or migrate Windows systems online with Microsoft Volume Shadow Copy Service (MS VSS) or Paragon Hot Processing
Advanced bootable environment	NEW > WinPE 3.0 bootable environment enables to accomplish operations without the software installation
Clone HDD/Partition	Provide for fast and easy storage upgrade
Available backup location	Local mounted partitions, external storages, or network shares

AVAILABLE LICENSES

End User Single License or Corporate Single License

Each user must agree with the terms of this license type during product installation. EULA (End User License Agreement) grants the legal right to use Paragon Software within a private household or an office. The complete text of EULA can be found in the installation package. By default all products include this license type.

Volume License

Prices are calculated from two units to several hundred units:

1 'Per Migration' License*	\$199.00
5-License Pack	\$845.75
10-License Pack	\$1592.00
20-License Pack	\$2786.00

* One 'Per Migration' License stipulates the use of the software to accomplish one system migration only.

SYSTEM REQUIREMENTS

Supported Operating Systems	Supported Virtual Machines
Windows 7 (32/64-bit) Windows Vista (32/64-bit) Windows XP Professional (32/64-bit) Windows XP Home x32 Windows 2000 Professional x32 Windows Server 2000 x32 Windows Server 2003 x64 Windows Small Business Server 2003 Family Windows Small Business Server 2008 Family Windows Storage Server 2003 Windows Server 2008 Family (32/64-bit) Windows Small Business Server 2011	Microsoft Virtual PC Microsoft Virtual Server Microsoft Hyper-V R1/R2 VMware Workstation VMware Fusion VMware ESX Server Oracle VirtualBox 3.0-3.12
Supported HDD and Removable Media	Supported File Systems
Parallel ATA (IDE) HDD Serial ATA (SATA) HDD External SATA (eSATA) HDD SCSI HDD SSD (Solid State Drives) AFD (Advanced Format Drive) Non-512B sector size drives 2TB+ drives All levels of SCSI, IDE and SATA RAID controllers RAID support (hardware and software) CD-R/RW DVD-R/RW DVD+R/RW DVD+/-R (DL) BD-R BD-RE USB 1.x/2.0/3.0 and IEEE 1394 (FireWire) devices PC card storage devices	NTFS (v1.2, v3.0, v3.1) FAT16 FAT32 Linux Ext2FS Linux Ext3FS Linux Ext4FS Linux Swap Apple HFS+ Other file systems (in the sector-by-sector mode)
For Windows installation	For WinPE environment
Intel Pentium or compatible, 300 MHz or higher At least 128 MB (256 MB or greater) Disk space: 250 Mb Internet Explorer 5.0 or higher	Intel Pentium III CPU or compatible, 1000 MHz or higher At least 512 MB of RAM SVGA video adapter and monitor Mouse
