Paragon Software Group Announces Release of Partition Manager 6.0

Innovative data security and management solution based on Paragon's unique partitioning and imaging technology

May 12, 2004

Paragon Software Group, the European specialist for innovative data security and data management technology today launched Paragon Partition Manager 6.0, the latest version of its award-winning, flexible hard disk management solution. New features as rich package, intuitive wizards and clear user interface makes Paragon Partition Manager 6.0 reliable, fast and it includes all the options necessary to accomplish any task which requires modifying hard drive partitions.

Now Paragon Partition Manager 6.0 can more efficiently manage and protect system and important data: safely resize partitions for all partition types used by windows 95/98/NT/Me/2000/xp/2003 and Linux (Ext2, Ext3 and ReiserFS), create, copy, merge, undelete and convert any OS type partition.

Experienced users and enthusiasts will appreciate the tools included with Partition Manager 6.0:

Boot Manager and Recovery CD allowing users to install, run and utilize multiple operating systems, helping to restore even unbootable PCs and rescue important data. Redistribute Free Space Wizard facilitates disk space distribution. Undelete Wizard locates and restores accidentally deleted partitions. Merge Wizard merges partitions even of different file systems. Exclusive wizards in Paragon Partition Manager 6.0 gives detailed guidelines and clear instructions, allowing users of Partition Manager easily manipulate partitions to increase protection of valuable data and optimize the performance of their computer.

Other powerful features include cluster resize capabilities permitting user to improve PC performance and reliability with more efficient cluster sizes; Also Master File Table (MTF) defragmenter and Partition Explorer which lets users look into normal and hidden Fat, Fat32 and NTFS partitions and move files among partitions regardless of partition type.

Using Paragon Partition Manager 6.0 you can deploy your old PC to a new one, transfer everything (Settings, Programs, Systems, and Data Files) to a new hard disk as well as save an Exact copy of your contents on an External USB-Device and resize transferred partitions to match the new drive size.

Register-ID: HRB 720 Mü
Freiburg/Br.
CEO: Konstantin Komarov
VAT-ID: DE-220063934

Volksbank Breisgau
Account: 30050606
BIC : 68061505
Tax-ID : 12 001 13844

Technologies Support:

- large hard disks (up to 500GB tested, theoretically not limited)
- P-ATA(IDE). S-ATA (SATA), SCSI hard disks
- FireWire, IEEE1394, USB 1.0, USB 2.0, ZIP and Jazz hard disks
- NTFS from Windows NT, 2000, XP and 2003(only professional)
- NTFS with compressed and encrypted files and folders
- FAT 16, FAT32, NTFS, Ext2 FS, Ext3 FS, Reiser FS, HPFS file systems
