Apple File System – APFS – is a new file system for macOS, iOS, and other Apple devices. To boost a Linux device with read-write access to APFS-formatted HDD, SSD or flash drive, embed APFS for Linux by Paragon Software. The driver is a part of Paragon File System Link Suite – all-in-one solution for multiprofile access to files across Mac, Windows, Linux.

Who benefits?
Original equipment manufacturers.

What’s inside?
• Read-write access to APFS files
• Automount of supported volumes at startup
• Support of all character sets including non-Roman and non-Latin characters
• Full control over the APFS driver via the command line
• Encrypted subvolumes read support
