

Need to work around the APFS limitations like incompatibility with Time Machine for backups and FileVault 2 for drive encryption, or the inability to format Fusion drives?

Use APFS to HFS+ Converter by Paragon Software Group and easily revert to the old good HFS+ for your specific scenarios. Create recovery media to start your Mac and then convert the system volume.

### What's inside?

	Fast and lossless conversion of APFS volumes into HFS+ volumes
	Support for APFS and HFS+ volumes on internal and external disks
	Recovery media (creating a special bootable drive) for safe startup and further system volume conversion
	Logging events throughout the conversion process.

### How it works

The converter helps you:

**1.**

Select a desired volume for conversion

**2.**

**Optional!** Consider creating recovery media in case of system disk conversion

**3.**

Quickly perform the conversion.

### How is it licensed?

Download, activate and use the product free of charge!

### System requirements

- macOS 10.12+
- Sufficient disk space for conversion output (based on volume size)

### About Paragon Software Group

Since 1994, Paragon Software Group has delivered a wide range of software tools, solutions, and technologies. Our offerings range from low-level storage management and file system drivers to safekeeping and recovery of operational, business, and user data across heterogeneous platforms and environments.
